With no market comparison the past 2 weeks due to the Christmas Holidays, today's buyer activity was brisk with solid aggression on all weights of feeder calves. The slaughter cow figures were also higher as the packer buyers stretched their pre-holiday figures to replenish inventory.

Dry weather is beginning to take a toll on the wheat country forcing pre-mature movement into the feedlots of both heavy and lighter calves but had no affect on today's buyer momentum.

Compared to the previous market report, feeder calve averages appeared to be \$5 to \$8 stronger.
