Compared to last week's feeder steers and heifers weight price averages from 500 lbs and down ended from \$2 to \$4 higher while those classes over 500 lbs trended \$3 lower as some lower grade calves pulled on the averages. Slaughter cows and bulls finished fully firm with last week's prices as the packers continue to secure inventory.

Lighter marketing volumes continue to keep the market figures healthy with a good demand but the drought continues to affect 80% of the nation's beef herd. Sky rocketing fuel and fertilizer prices coupled with double digit inflation will also continue to play in the future mix.

**NEXT WEEK WILL BE OUR MARCH WEANED CALVE SALE**
