

DCR Data Quality Improvement

Webinar #3: Issues with the 3M and usability of forms

50 of 59 Submitting entities had potential issues with missing 3M Assessments. This webinar will be useful because it addresses a variety of issues related to filling out 3M forms as well as submitting them. We hope that all counties invited will benefit!

Summary: Common challenges to 3M data quality include: capturing the data within the 45-day window allowed; missing information for discontinuous partners when they are away from program; finding utility in the assessment for children and TAY; submission of assessments out of order (for XML counties); and, in NetSmart Avatar XML, submission of assessments for new partners or once one is missed counties. Other issues include mistakes made on the form that are difficult or impossible to correct.

Specific counties who may benefit:

Alameda	El Dorado	Lassen	Mono	Riverside	San Joaquin	Santa Cruz	Tehama
Amador	Fresno	Los Angeles	Monterey	San Benito	San Luis	Shasta	Tri City
Butte	Glenn	Madera	Napa	San	Obispo	Sierra	Trinity
Calaveras	Humboldt	Marin	Nevada	Bernardino	San Mateo	Siskiyou	Tuolumne
Colusa	Imperial	Mariposa	Orange	San Diego	Santa	Solano	Ventura
Contra Costs	Kern	Mendocino	Placer	San	Barbara	Sonoma	Yolo
Del Norte	Kings	Merced	Plumas	Francisco	Santa Clara	Stanislaus	

Who should attend?

- Clinicians
- Administration
- Data analyst
- IT
- Billing/accounting staff
- Quality assurance

Topics to discuss:

- Online form time out
- Dense text on form
- Capturing the data in a 45 day window
- Missing information for discontinuous partners
- Submission out of order
- Correction of forms

Thursday, November 16th 1-3 pm

Presenters from MHDATA and DHCS
