Summary Reports #1: Brainstorming client, PSC, provider, county, region/state level data summary reports

Summary: Several counties have expressed interest in state-created summary reports to be distributed. This webinar will act as a brainstorming session for these summary reports. A report could be created at any level (client, provider, PSC, program, county, or state) so this session will determine which would most benefit counties. In two weeks, we will reconvene to discuss finalizing these summary reports.

Specific counties who may benefit:
