

## CSI Data Quality Improvement

### Webinar #5: ICD-10

**14 Submitting entities had potential issues with ICD-10. This webinar will be useful because it addresses a variety of common issues related switching to ICD-10. We hope that all counties can benefit!**

**Summary:** Some EHRs experienced issues with the system upgrade to accommodate ICD-10. As a result, many submitting entities submitted files which generated large numbers of fatal service record errors relating to diagnoses and medical condition fields. These counties are using one of the following EHRs: NetSmart Avatar, NetSmart CMH, Echo ShareCare, InSist or Cerner Anasazi.

### Specific counties who may benefit:

Butte	Imperial	Monterey	San Francisco	Solano	Ventura
El Dorado	Lassen	Placer	San Luis Obispo	Tehama	Yolo
Fresno	Marin	San Bernardino	Santa Cruz	Tulare	

### Who should attend?

- Clinicians
- Administration
- Data analyst
- IT
- Billing/accounting staff
- Quality assurance

### Topics to discuss:

- Major problems with ICD-10
- NetSmart and ICD-10
- Common issues in switching from ICD-9 to ICD-10
- Unresolved fatal errors
- Fixing errors, batch submission

**Thursday, March 1<sup>st</sup> 1-3pm**

**Presenters from MHDATA and DHCS**
