

CSI Data Quality Improvement

Webinar #9: Cerner Anasazi and other Cerner Specific Issues

There are 26 counties that use Cerner Anasazi that can benefit from this webinar. We will be exploring common issues in using the EHR and brainstorm solutions that can easily be implemented. Hopefully all that attend can benefit!

Summary: Several common issues within Cerner Anasazi will be discussed including suspended records, drops in submission, and lack of service reporting. Specifically, submitting entities commonly report a bulk of their collateral services under other codes, such as with the Mode 15 (30-38, 40-48, 50-57) Mental Health Services code. A change in reporting code might have occurred for many counties when they began using and calibrated Cerner Anasazi, as several of these counties' collateral services fall off in the same month this EHR was implemented.

Specific counties who may benefit:

Alpine	Glenn	Lassen	Napa	Shasta	Trinity
Amador	Inyo	Madera	Nevada	Sierra	Tuolumne
Calaveras	Kern	Mariposa	Plumas	Siskiyou	
Colusa	Kings	Merced	San Benito	Stanislaus	
Del Norte	Lake	Modoc	San Luis Obispo	Sutter Yuba	

Who should attend?

- Clinicians
- Administration
- Data analyst
- EHR vendors
- IT
- Billing/accounting staff
- Quality assurance

Topics to discuss:

- Major data quality issues with Cerner Anasazi
- Mode 15 Submission
- Holding records in suspension
- Drop in total submissions
- Services not being reported

Thursday, March 29th 1-3pm

Presenters from MHDATA and DHCS
